

10th Annual Costa Verde International School

Scholarship Fundraiser

February, 16, 2017

5:00 pm

Don Pedros Palapa

Sayulita, Mexico

About CVIS

We believe this school must be more than just a private institution for children to learn. It will make a contribution to the environment and the community in general.

The founders of Costa Verde International School have insisted on raising the bar for how much a school can give to its local community. The scholarship program is designed to provide increased access for local children who are in need of financial assistance, thereby creating a more diverse student population. Currently, over 40% of Costa Verde families receive some form of financial assistance.

We believe:

- All children deserve an education
- In the joy of learning
- That positive change can be brought about through education
- That ecological stewardship is essential to our future
- In the supportive relationship between the community and schools
- In nurturing individual abilities and passions
- In striving for excellence

For more information about CVIS please visit our web site:

www.colegiocostaverde.com.
